GIFTS FROM THE PUBLIC

It shall be the policy of the district to accept a gift or memorial, provided it is made within the statutory authority granted to school districts and has received the approval of the Board of Education.

In granting or withholding its consent, the Board will review the following factors:

1. The terms of the gift or memorial must identify:
 - a. the nature of the gift or memorial
 - b. the purpose of the gift or memorial
 - c. the intended beneficiaries, where appropriate
 - d. the extent to which the gift or memorial may be publicized
 - e. all other conditions or restrictions that may apply
2. The gift or memorial must not benefit a particular or named individual or individuals. If the purpose of the gift is an award to a single student, the determination of the recipient of such award shall be made on the basis that all students shall have an equal opportunity to qualify for it in conformance with federal and state law.
3. All gifts or memorials shall be made to the Board of Education for the benefit of the school district as a whole. The Board of Education may take into consideration that the gift or memorial benefits a particular school building or program.
4. No gift or memorial shall be accepted which is restricted by a requirement that a school facility, property, equipment, event or program be named or re-named in perpetuity for an individual, living or dead. An appropriately, common-sized record of the gift or memorial may be affixed to the facility, property or equipment and/or recorded in any printed or published material related to a program or event, or in such other location as may be designated by the Board. Subject to the wishes of the donor, press releases or other public notice of the gift may be disseminated to the media.
5. If the gift is in trust, the obligation of the investment and reinvestment of the principal shall be clearly specified and the application of the income or investment proceeds shall be clearly set forth.
6. No gift, trust, or memorial shall be accepted by the Board of Education unless:
 - a. it is in support of and a benefit to the entire school district, or, upon Board approval, to a particular school or program of the school district.
 - b. it is for a purpose for which the school district can legally expend its own funds, or
 - c. it is for the purpose of awarding scholarships to persons who are either currently enrolled as students in the school district, or those persons who have graduated from the school district within the most recent school year.

Any gift rejected by the Board shall be returned to the donor or his/her estate.

7. After the Board of Education has established a scholarship fund, acceptance of additional contributions to the scholarship fund are not subject to Board approval, unless the Board of Education determines that the scholarship shall be terminated.
8. The Board will be provided with an annual report of gifts which shall list all contributions and a summary of disbursements.
